DETAILED ACTION

Election/Restrictions

This application is in condition for allowance except for the presence of claims 28-38 directed to an invention non-elected without traverse. Accordingly, claims 28-38 have been cancelled.

Allowable Subject Matter

Claims 19-23 and 39-43 are allowed.

As per claims 19-23 and 39-43, the prior art of record fails to teach a method of managing access to an attraction in an entertainment environment, wherein a first physical queue is established in a FIFO order, and a second physical queue is established in a FIFO manner that avoids the first queue, in combination with the other claimed features and or limitations as claimed.

It is noted that the prior art only teaches a first queue using FIFO and a second queue using time based reservations. A time based reservation is not deemed to be equivalent to a FIFO since the first to enter the queue is not necessarily the first person to access the attraction. In other words, if a person makes a reservation for 4:35 pm and shows up at the second queue at 4:32 pm, and another person makes a reservation for 4:40 pm but shows up at the second queue at 4:30, and although the second person is the first to enter the second queue, they will not go before the first person since the first person has a reservation time earlier than the second person's reservation time. Apparently the second queue, which operates in conjunction with time reservations made for the attractions, allows the patrons to access the attraction in a manner wherein the "first in" is also the "first out". This specific methodology is not adequately disclosed by the prior art of record.
